

T Series

T Series Industrial Vacuums

- three-phase, electric vacuums for every application

Tailor-Made Cleaning Solutions

- specific features for all industry application needs

The T Series offers continuous-duty industrial vacuum cleaners with strong performance at an affordable price. Ideal for collection of powders, liquids, dust and debris, the vacuums are easy to use and maintain, even in the most challenging environments.

Features and Benefits

The T26, T48 and T63 are equipped with motors from 2,600 up to 6,300 W, allowing users to choose the most suitable model for their needs. With the following features, the T Series makes daily cleaning in production areas and process manufacturing fast and hassle-free:

- Constructed of heavy duty steel and polypropylene
- Lightweight and highly maneuverable with rear swiveling wheels and locking brakes
- Unique release lever lowers the wheeled collection container and acts as a handle for fast and easy disposal of collected debris
- Compatible with a wide range of Nilfisk attachments and hoses to meet specific application requirements
- Low noise operation, increasing worker safety and comfort

Upgrade to the T-Plus series for optional:

- electrical upgrades
- automatic filter cleaning
- wet or dry sensors
- remote start/stop
